CityTeam Women's Programs

November-December Newsletter

Thanks to a generous grant from Housing Industry Foundation, and the generous support of the Lawrence Family, House of Grace has had a complete make-over! Community Room renovations include a new computer room, conference tables, ergonomic chairs, flat screen TV, new air/heating system, a custom built book case, and new carpeting. Electrical panels were also upgraded to accommodate two new whirlpool washers and dryers. Also, each of the residents' apartments received an upgrade as all units were repainted, re-carpeted and each

received living room and dining room furniture. The finishing touch to the renovation is a brand new playground unit that is age appropriate for children 0-5 years and a brand new set of educational books that are also geared for our children 0-5 years of age. What a tremendous blessing this renovation has been. The women, children and staff of House of Grace are truly thankful for the gift and are busy preparing to display their gratitude at the January 3rd Open House. Thank you to all who helped make this project possible.
