EHF IMPACT

A Chance to Breathe Again

This grant has had a tremendous impact on my life and overall stability. As a single adult with no children who earns a modest but “okay” income, I am often ineligible for most assistance programs. Even when I am struggling, I usually fall into the category of making “too much” to qualify, while still living paycheck to paycheck. This has made it difficult to access support during unexpected financial hardship.

Receiving this grant came at a critical time for me. I was facing significant stress around housing stability and the possibility of falling behind on rent. The uncertainty was affecting my mental health, my focus at work, and my overall sense of security. Knowing that my rent was covered lifted an enormous weight off my shoulders.

Because of this support, I was able to breathe again and regain a sense of control over my life. Instead of constantly worrying about losing my housing, I can now focus on rebuilding my finances, staying consistent in my work, and continuing to support myself in healthy ways. This assistance gave me time and space to reset and move forward with stability.”

- Rhamell, EHF recipient

More than just financial help, this grant reminded me that people like me—who may not fit traditional categories for assistance—still deserve support during difficult seasons. I am deeply grateful for this opportunity, and it has made a meaningful difference in my life.
